President and Secretary General
CILT Hong Kong
2nd March 2018

Dear President and Secretary General

The registration process for this year’s CILT International Convention in Wroclaw, Poland is now open for bookings. The main themes during this year’s convention will be: Linking Central and Eastern Europe to the world, The electric car revolution and its impact on logistics. The Convention will bring together, for example, the representatives of Women in Logistics and Transport and Young Professionals.

I wish to draw your attention to the fact that for your country’s residents there might be a visa required. Should this be the case visa process requires applications in advance from the Embassy or Consulate nearest to you. The details can be found through the CILT 2018 Convention website http://ciltn2018.cilt.pl/organisational-information/visa-travel-information.

In order to successfully get your members to Poland it is important that we start the process early. Both I and the Polish organising committee are committed to help you in every way.

Can I ask you therefore to look at the process required in the next few days and the documentation that is needed for the applications? It would be easier we think if the applications were coordinated through your country office with a request to members to get an early application for a visa in to your office for you to then process accordingly locally and seek the assistance of CILT (UK)- Polska for support documentation.

We would like to put the focus on this in the next 2 weeks so that by Friday March 16th we have a clear view on what your country is planning to do and the assistance that is needed. That would allow us ideally to have all applications in and responded to by the end of April at the latest. Please email me with your plans and your main contact by the 19th March on cilt@cilt.pl.

With best regards,

Marcin Pawęska, PhD
President of CILT (UK)- Polska
