

## CPD Requirements

1. Members are required to maintain sufficient records and documentary evidence to support their attendance or completion of structured CPD activities for a minimum of two years, and to provide such records and documentary evidence when they are selected for a random audit to be conducted biennially by the Institute.
2. In consideration of the minimum CPD requirements, the Institute recognises that the effectiveness of CPD is best measured in terms of what has been learned as well as the relevancy of the nature of CPD activities to logistics and transport. In this regard, a point system is introduced as the yardstick of this system.
3. The minimum CPD points required for a FCILT/CMILT are at least 200 CPD points in every two years.
