

LSCM Logistics Summit 2021

Innovate to Revitalise in the Post-COVID-19 era

Introduction

The COVID-19 pandemic has brought about serious disruption to various industries worldwide, creating a devastating impact on the global economy. The pandemic has also changed the business culture and behaviour, and innovation and technology are the key to business continuity and economic revival amid and after the pandemic.

In this year's LSCM Logistics Summit, the Centre's signature annual event, government officials, industry experts, business leaders and academia representatives will come together to share the challenges brought on by the pandemic and how to revitalise the logistics community using innovation and technology. Speakers and guests will inspire each other with their insightful ideas on the importance of technological development in rejuvenating the industries and the economy. They will also share the latest updates about the Smart City development in Hong Kong.

Event details

Date: 10 September 2021 (Friday)
