

When it comes to S&P of ships, people usually will think of Yachts. But for commercial vessels, it will be those which carry coal, grain, iron ore (Bulk carriers) or palm oil, crude oil, Jetfuel (Tankers) or TEUS, FEUS (Containers) that we are talking about.

This session will cover the recent developments of the three markets (Bulkers, Tankers and Containers) and it will also touch base on the process of buying/selling a vessel. We are talking about vessel's value starting at USD 1 million up to hundreds of millions from personal experience so handling these transactions is not for the faint-hearted.
