

## Joint Webinar:

### Road Safety and Road Safety Audit: a HK/UK Perspective

This seminar will compare and contrast Road Safety/Road Safety Audit issues and practice in Hong Kong with the United Kingdom. The presentation will review recently published road collision casualty statistics, emerging trends in transport and their implications for road safety engineers and auditors. A review of current road safety audit practice and design standards will also be incorporated.

The seminar is likely to be of interest to a broad range of people including civil engineers, designers, road safety specialists and transport planners.
