

# HKICT Awards 2022 Background

---

- The Hong Kong ICT Awards aims at recognising and promoting outstanding information and communications technology (ICT) inventions and applications, thereby encouraging innovation and excellence among Hong Kong's ICT talent and enterprises in their constant pursuit of creative and better solutions to meet business and social needs.
- Hong Kong ICT Awards was established in 2006 with the collaborative efforts of the industry, academia and the Government. Steered by the Office of the Government Chief Information Officer, and organised by Hong Kong ICT industry associations and professional bodies, the Awards aims at building a locally espoused and internationally acclaimed brand of ICT awards.
- There are eight categories under the Hong Kong ICT Awards 2022. There will be one Grand Award in each category, and an "Award of the Year" will be selected from the eight Grand Awards by the Grand Judging Panel.

# Award Categories

# Smart Mobility Award

## 3 Award Streams

- Smart Logistics
- Smart Transport
- Smart Tourism

**Application deadline:**  
**27 June 2022 (Mon)!!!**

# Smart Logistics stream

Smart Logistics is about **improving the supply chain, automating various logistic processes, shifting from traditional supply chains to open supply networks, together with integration of new technologies** in managing the goods movement, inventory, warehousing, handling, packaging and security of goods between the point of origin and the final recipient, no matter whether the means of transportation is by land, by sea, or multi-modal, so as to achieve end-to-end supply chain efficiency and visibility.

## Objectives:

- Use technologies innovatively to improve supply chain visibility, enhance distribution management and automate information flow
- Streamline and optimise cargo and baggage handling for enhancing the efficiency and capacity of logistics industry

# Smart Tourism stream

Smart technologies are changing consumer experiences and are generating creative tourism business models. **Big data, mobile apps, location-based services, geo-tag services, facial recognition, beacon technology, virtual reality, augmented reality, and social networking services** are all cutting-edge examples of smart technologies enhancing tourism experiences and services. Smart tourism allows tourists to **better communicate and interact with cities** to establish closer relationships with not only residents but also local businesses, local government and city attractions.

## Objectives:

- Use technologies innovatively to achieve resource optimization, increase competitiveness and enhance sustainability of tourism industry
- Enhance travelers' information accessibility, transportation, dining (food and food services), shopping and accommodation experience.

# Smart Transport stream

Transportation is an important pillar for every citizen in a city. Smart technology can be leveraged to **improve transportation experience and convenience for user**. Connected vehicles, alternate fuel vehicles, autonomous vehicles, car pooling, smart parking, smart traffic devices, upgrading airport into a smart airport through automation, mobility, personalisation and self-service are some of the examples of how smart transport can **create a seamless, passenger-centric travel experience** while **minimising the impact on environment**.

## Objectives:

- Use ICT to make mobility 'intelligent'
- Improve traffic monitoring, transportation accessibility and efficiency
- Improve the flow of people by reducing door-to-door journey times and traffic congestion
- Ensure safety, enhance liveability and improve quality of life of citizens

# General Eligibility Requirements

---

- The applicant must have the **intellectual property right** and/or **legitimate right** over the ICT product/service mentioned in the application.
- The application must be submitted by **locally (HK) registered entities** or **residents in Hong Kong**.
- A **significant part** of the innovation, design, research and development (R&D) of the mentioned ICT product/service **must come from resources in Hong Kong**.
- The submitted product/service must have been **available in the market for at least 3 months** or **in live operation for at least 3 months** at the time of closing for entry enrolment
- The same application is only allowed to be submitted to a maximum of **ONE award stream among all the Categories**.
- Winning entries of the Gold/Silver/Bronze award in previous years of the HKICT Awards can enter the Awards again only if there is **significant change or enhancement** in the product/service, or for a new award category.
