Asia's leading fair for promoting advanced green technologies 推廣創新綠色科技的亞洲領先貿易展

Eco Expo Asia is a global trade platform for the environmental protection industry to showcase the latest green products and state-of-the-art technology. Organised by the Hong Kong Trade Development Council (HKTDC) and Messe Frankfurt (HK) Ltd, co-organised by the Environment and Ecology Bureau of the Government of the Hong Kong Special Administrative Region (HKSAR), the fair provides B2G, B2B and B2C opportunities for green industries with staunch support from Hong Kong, Mainland China as well as international government authorities and industry associations.

國際環保博覽作為環保產業的領先展會，為全球業界提供展示最新綠色產品及技術的貿易平台。博覽由法蘭克福展覽（香港）有限公司及香港貿易發展局（香港貿發局）主辦、香港特別行政區政府環境及生態局協辦，獲香港、中國內地及全球多地政府部門及行業協會的鼎力支持，致力為環保業界提供企業對政府（B2G）、企業對企業（B2B）及企業對顧客（B2C）的商機。

Fair highlights 博覽焦點

Green buildings and energy efficiency 綠色建築及能源效益

The building and construction sector accounts for 37% of CO2 emissions globally. To combat this, the EU imposed a zero-emission regulation on all new buildings constructed from 2030 onwards. The HKSAR government has set a goal to reduce the electricity consumption of commercial buildings by 30% to 40% and that of residential buildings by 20% to 30% from the 2015 level by 2050. Hong Kong is also working towards ceasing the generation of electricity by coal and increasing the share of renewable energy in the fuel mix from less than 1% at present to between 7.5% and 10% by 2035.

建築行業的碳排放量佔全球碳總排放量的37%。針對綠色建築，歐盟建議在2030年起新建成的建築物須實現淨零排放，以解決有關問題。香港特別行政區政府目標是在2050年或之前，商業樓宇用電量較2015年減少30%至40%，以及住宅樓宇用電量減少20%至30%。同時，香港亦力爭在2035年或之前不再使用煤作日常發電，並將可再生能源在發電燃料組合中所佔的比例，由現時不多於1%，提升至7.5%至10%。

Green transportation 綠色運輸

The HKSAR government has set out a timeline for eliminating the new sales of conventional fuel-powered private cars by 2035. Public funds have also been earmarked for subsidising and commencing trials of hydrogen fuel cell electric double-decker buses and electric ferries, bringing huge opportunities for new energy transportation to the city.

香港特別行政區政府已就綠色運輸訂立明確時間表，於2035年或之前停止新登記燃油私家車，並預留財政資源開展氫燃料電池雙層巴士試驗和資助建造及試驗電動渡輪，為普及新能源交通工具帶來巨大機遇。

Green finance and ESG 綠色金融以及環境，社會及管治 (ESG)

As an international financial centre with a world-class regulatory framework, the HKSAR is well-equipped to become the premier green and sustainable finance centre. The government spares no effort working together with international investors, industry associations and experts as well as governments, especially those in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA) in developing Hong Kong into an international carbon market and green financing platform, underpinning the importance of green finance to the region's carbon neutral future.

作為擁有世界級監管制度的國際金融中心，香港擁有穩健基礎將之打造成為首屈一指的綠色和可持續金融中心。香港特區政府不遺餘力地與國際投資者、行業協會和專家，以及政府部門合作，特別是在大灣區城市，致力將香港發展成為國際碳市場和綠色融資平台，足證綠色金融對實現碳中和未來的重要性。

Exhibitor testimonials 參展商評語

"We've attended Eco Expo Asia many times, and we're here to promote the latest design of our automated refuse collection system. Visitors to our booth think it is a good fit with the local municipal waste charging system, and are keen to learn more about it as it is completely new to the market. I think it is well accepted that this exhibition is the most representative event for environmental protection, so I would recommend everyone in this field to join."

「我們參加過很多次國際環保博覽，今次主要推廣公司旗下最新的垃圾自動收集系統。不少到訪我們展位的買家都認為系統很適合香港的垃圾徵費計劃，並希望作進一步了解，因為它是市場中全新的產品。我認為國際環保博覽是行業公認最具代表性的環保活動，所以我很推薦各位業界人士參加。」

Visitor feedback 買家評語

"We are the second-largest cement producer in Thailand. This is my first time visiting Eco Expo Asia. Thanks to the Click2Match service, I have found two potential business partners from Japan. One of them provides new technology for waste-to-energy power plants while the other showcases plastic recycling technology. I'll keep in touch with them to further discuss potential collaboration. It's a good show, so I'll come again next year."

「我們是泰國第二大水泥生產商。這是我首次參觀國際環保博覽。感謝『商對易』(Click2Match)服務，讓我找到兩位來自日本的潛在業務合作夥伴。其中一家提供新技術用於轉廢為能的發電廠，而另一家則展示塑料回收技術。在博覽會結束後，我會跟他們保持聯繫，希望能與他們建立合作夥伴關係。這是一個很好的展覽，所以明年我會再來參觀。」
